Letter: Just one small problem with this ‘beach house’

From Ted Leary, Founder and President, Crosswater Advisors, Los Angeles, CA, US

YESTERDAY

In your article about Soho House going public, it was reported that the company was planning to open a “beach house” in Palm Springs (“Soho House throws open its doors to the public”, Report, July 15). If so, as an Angeleno, I can’t wait to get my surfboard out of the garage and boogie on down to the waves on Palm Springs’ roiling sand dunes — Palm Springs being about as far from a “beach” as you can get in California.
